

The Ramapo Valley Brewery is owned and operated by R.V.B Breweries Inc

Dear Customers;

Firstly let me say, I want to thank everyone for their patience.

In early 2007 it became apparent to us that due to the high demand for our beers, that we would be stymied by our lack of ability as a Micro Brewery to produce beyond the cap amounts of beer allowed to be brewed by Government regulations, sold by a Micro Brewery.

Due to the limitations of that law, we decided to take the plunge and apply for Full Brewery Status with both the State of New York, and the Federal government. This change from being a Micro Brewery to a Full Brewery would remove the cap ceiling on the amount of beer we could produce and allow us to brew unlimited amount of beer under the new Full Brewery licences.

To accomplish this, we would have to give up our old Micro Brewery licences , stop producing, and apply for both a new State and Federal brewing permit, which we did.

This was not an easy task. It meant not being able to produce our beer for several months, however we felt the risk was worth the effort. During this lull in our production, we have spent a great deal of time and money renovating our brewery for this expansion.

The State of New York passed our application and we are now awaiting the Alcohol , Tobacco and Firearms (ATF) to finish their inspections , which we hope will be concluded before the new year.

We know this has been an inconvenience to many of our faithful customers, we can only say, that we have done this , in an effort to be able to meet the market demands without the shortage problems we faced in the past.

Please bear with us , we will update you by return email and Press Releases as soon as we receive our final Federal licences.

Thank you for your support.

Sincerely

Dan Scott, President
